Bad Sobernheim, April 2020

Official statement of the company Ewald-Gelatine GmbH:

New distributor for leaf gelatine, new brand name "Rheingold", original top quality from Ewald-Gelatine GmbH

It has come to our attention that leaf gelatine in our blue box, which we have been using for years and which we designed, is sold under the brand name "VAL'DE".

This is being done without our approval.

Even if we should be mentioned on the label of this packaging as the producer, we cannot guarantee that original Ewald gelatine is contained in these packages, as these boxes were not packed at our factory.

We reserve the right to take all legal steps against this behaviour.

Original Ewald leaf gelatine will be available from UD Chemie in future!

The companies UD Chemie and Ewald-Gelatine GmbH have a long-term business relationship based on trust.

We are therefore all more pleased that our gelatine leaves are now being distributed by our partner UD Chemie.

In future, you will recognise our original product by our new black and gold box with the word-picture trademark "Rheingold in red oval with golden bow":
